Terms and Conditions of Sale

Price:

Prices are subject to change without notice. Prices charged will be those in effect at the time of the acceptance of the order.

Acceptance:

All orders are subject to acceptance by an officer of Flint Trading, Inc.

Taxes:

The price of the products specified herein excludes any federal, state or local taxes. The Buyer is responsible for any federal, state, or local taxes that apply. The Buyer agrees to reimburse the Seller for any taxes he might ultimately be obligated to pay as a result of this sale which normally would have been collected at the time of sale.

Payment:

Seller's prices are calculated on a cash-with-order basis. Therefore, all orders are COD unless credit is already established by an acknowledged credit application. Terms on established credit accounts are net on presentation. Balances unpaid after 30 days from date of invoice are subject to a service charge of 1.5% per month or maximum allowed by law, if different, together with expenses incidental to collection, including specifically set forth reasonable attorney's fee of 20% of the unpaid balance.

Product Changes:

Flint Trading, Inc. is constantly working to improve products. Therefore, in order to incorporate new technological advances, we reserve the right to alter chemical nature, specification, design or weight. Flint Trading, Inc. shall not be required to modify goods already sold or in service.

Freight Policy:

All product is shipped FOB our warehouse in Thomasville, NC unless otherwise stipulated.

Claims for Damage or Shortages:

Any claims for shortages must be made within 10 days after the receipt of the merchandise. All products are shipped from our warehouse in Thomasville, NC in good condition and packaged securely. Any shipment which arrives with visible signs of damage or missing packaging should be refused or thoroughly inspected with damage noted on the carrier's delivery ticket. Any claims for goods damaged (visible or concealed) must be made by the Buyer to the delivering carrier within 10 days after receipt of the merchandise.

Restocking Charges:

No merchandise may be returned for credit without the Seller's prior approval and a Return Merchandise Authorization number, and only with the transportation charges prepaid. A 15% (fifteen percent) restocking charge will be deducted from any credit issued. Returned merchandise will not be accepted after 90 days from the date of delivery.

Warranties:

TopMark® is intended to be used as a detectable warning in compliance with and as defined by The Americans with Disabilities Act and Architectural Barriers Act Accessibility Guidelines and the Public Rights-of-Way Accessibility Guidelines. TopMark® is warranted for its intended use for five years from the date of purchase by the Seller to not degrade significantly when installed and maintained according to the manufacturer's application instructions.

Should a product prove to be defective or unsuitable in any way, it is understood that the Seller's limit of liability for all damages, including but not limited to, direct, incidental or consequential injury, loss or damage arising out of the use of or the inability to use the product, shall be to repair the defective product or to provide an equivalent quantity of replacement product.

Important Notice:

Before using any product from the Manufacturer and Seller, the Buyer shall determine the suitability of the product for his or her intended use and the Buyer assumes all risk and liability whatsoever in connection therewith.

The following excerpts are reprinted from the 2009 Edition of the Manual on Uniform Traffic Control Devices (MUTCD), Chapter 1A.General. To view and access the MUTCD in its entirety, visit <http://mutcd.fhwa.dot.gov/index.htm>.

Section 1A.02 Principles of Traffic Control Devices

Support:

This Manual contains the basic principles that govern the design and use of traffic control devices for all streets, highways, bikeways, and private roads open to public travel (see definition in Section 1A.13) regardless of type or class or the public agency, official, or owner having jurisdiction. This Manual's text specifies the restriction on the use of a device if it is intended for limited application or for a specific system. It is important that these principles be given primary consideration in the selection and application of each device.

Section 1A.07 Responsibility for Traffic Control Devices

Standard:

The responsibility for the design, placement, operation, maintenance, and uniformity of traffic control devices shall rest with the public agency or the official having jurisdiction, or, in the case of private roads open to public travel, with the private owner or private official having jurisdiction. 23 CFR 655.603 adopts the MUTCD as the national standard for all traffic control devices installed on any street, highway, bikeway, or private road open to public travel (see definition in Section 1A.13). When a State or other Federal agency manual or supplement is required, that manual or supplement shall be in substantial conformance with the National MUTCD.

02 23 CFR 655.603 also states that traffic control devices on all streets, highways, bikeways, and private roads open to public travel in each State shall be in substantial conformance with standards issued or endorsed by the Federal Highway Administrator.

Section 1A.10 Interpretations, Experimentations, Changes, and Interim Approvals

Standard:

01 Design, application, and placement of traffic control devices other than those adopted in this Manual shall be prohibited unless the provisions of this Section are followed. Support:
02 Continuing advances in technology will produce changes in the highway, vehicle, and road user proficiency; therefore, portions of the system of traffic control devices in this Manual will require updating. In addition, unique situations often arise for device applications that might require interpretation or clarification of this Manual. It is important to have a procedure for recognizing these developments and for introducing new ideas and modifications into the system.

Standard:

03 Except as provided in Paragraph 4, requests for any interpretation, permission to experiment, interim approval, or change shall be submitted electronically to the Federal Highway Administration (FHWA), Office of Transportation Operations, MUTCD team, at the following e-mail address: MUTCDofficialrequest@dot.gov.
